Tiger Years- 1926, 1938, 1950, 1962, 1974, 1986, 1998, 2010, 2022.

Tigers are courageous beyond compare and generally come out ahead in battle. Noble and warm-hearted, Tigers have a natural, raw appeal that's extremely attractive to other Signs. They have an air of authority that prompts others to fall in line. Tiger's main interest is in following its ambitions -- and maintaining control. Ever on the side of right, Tigers will fight the good fight to the bitter end if the cause is worthy.

Socially, Tigers experience mood swings and often feel things more intensely than others, the latter quality being both good and bad. They can react poorly under stress and are prone to emotional outbursts. This Sign's bristling sensitivity can send friend and foe running for cover.

A lesson that Tigers would be well-served to learn is "moderation in all things." Once these cats can find their centre and direct their considerable energies toward worthwhile endeavours (as opposed to racing through life), they will accomplish much
